	BUG DESCRIPTION	BUG LINK	PRIORITY & SEVERITY	RE TEST STATUS
	No aestrick symbol is present on add property section which is making difficult for user to understand which fields are mandatory	Screenshot 2026-10-20 at 1.12.18 PM.png	Severity :medium Priortiy : Low Able to add property but functionality wise adding aestrick symbol is best practice	
	On pay rent screen, UI distorted at sumamry section which is not ideal way to showcase (Browser & Mobile both)	Screenshot 2026-10-20 at 3.35.49 PM.png	Severity : Medium Priortiy : Low Calculations are correct , not bloking any functionality	
	when adding postal code without space,application throws an error & not accepting that value	Screenshot 2026-10-20 at 3.37.44 PM.png	Severity :Low Priortiy : Low Not affecting functioanlity & business as well	
	In verify identity section, selected driving license as a document but added pan card document but it got successfully approved even though other document is provided	Screenshot 2026-10-20 at 3.41.59 PM.png	Severity :High Priortiy :High User can add any ID instead of genuine documents so there should be validation for this	
	No age validation is kept in Date of birth details in personal details section when adding birth date under 18 years age then also it accepts		Severity :Low User is able to add date of birth but age criteria should be corrected	
	user1 is able to see application & entire details of user 2 when copied URL and pasted it logged in user : sofia alvarez trying to view application of arjun	Screenshot 2026-10-20 at 3.57.48 PM.png	Severity :High Priortiy :High It can escalate as a security concern that all details of other users are visible	
	For same property able to accept 2 applications of different users	Screenshot 2026-10-20 at 4.21.44 PM.png Screenshot 2026-10-20 at 4.21.56 PM.png	Severity :High Priortiy :High Once landlord has accepted one propert request why to accepts 2nd bcoz property will be leased for one tenant only	

	When we are navigating to income page , adding all bank details, income verification status does not updates until refreshing a page	Screenshot 2026-10-20 at 6.03.27 PM.png	Severity: High Priority: High Here user is blocked on the page and not able to move to next page because status is pending	
	When we navigate back from income section & navigate again to same section and if reload page when income verification is in pending state then all details from income section are getting vanished	Screenshot 2026-10-20 at 6.20.57 PM.png	Severity: High Priority: High User will have to add details again if navigating back from income page which will be time consuming & bad user experience	
	Landlord credits go below zero	Screenshot 2026-10-20 at 9.54.59 PM.png	Severity: High Priority: High Once credits become zero no any error received by user which is functionality issue so high severity If credits are below zero then user should be asked to buy new credits which will help to increase business so high priority
